- Program policy questions and problems related to completing the application in e-snaps may be directed to HUD through the HUD HRE Virtual Help Desk, which is accessible online at [www.hudhre.info/helpdesk](http://www.hudhre.info/helpdesk).
- Project applicants are required to have a Data Universal Numbering System (DUNS) number, and an active registration in the Central Contractor Registration (CCR), in order to apply for funding under the CoC competition. For more information see the FY2011 CoC NOFA.
- To ensure that applications are considered for funding, all sections of the FY2011 CoC NOFA and the FY2011 General Section should be read carefully, and all requirements and criteria met.
- All applicants, new and returning, must complete the applicant profile in e-snaps for FY2011 before submitting the Exhibit 2 application.
- Renewal applications - carefully review and update application, if it includes data from the FY2010 application. Questions may have been changed, removed, or added, and the imported information may or may not be relevant.

**1. Provide a description of the project that addresses its entire scope, including the needs of the community/target population.**

Micah Ministries is a multi-service agency that provides basic needs, case management, winter shelter, post-hospital respite and supportive housing to Fredericksburg's homeless. These programs collectively served 1,132 different people--all of which were reported in HMIS--in 2010. Programs are developed to steer the most vulnerable homeless toward mainstream services and permanent housing. Through a relationship-based model, people who previously would not take a shower, interact with people or consider treatment have accepted steps toward recovery. The requested funding maintains what Micah piloted in 2008 as a community-wide effort to create housing for those whose incomes, backgrounds and credit histories keep them in shelters and on the street. The program has paved the way for even difficult clients to transition successfully from the street into housing.

Qualifying participants have income or the imminent promise of income--employment or disability. They also meet the HUD definition of chronically homeless. Special preference is given to those transitioning off the street, but those coming from a shelter are considered when they have spent time in places not meant for human habitation. Entry into the program starts with an application and interview with a Micah volunteer. Applications are then selected by agency staff. Upon acceptance, each person agrees to develop an individual success plan, work with a case management team, contribute volunteer hours and abide by program rules. Clients are then placed in scattered site apartments, offered by private landlords. Funds from the COC grant subsidize monthly rents ranging from \$500 for a room in a boarding house to \$800 for a two-bedroom apartment. This allows participants to pay no more than 30 percent of their income. Apartments are inspected bi-weekly for compliance with housing rules--overcrowding, cleanliness, illegal activities, etc. The supportive housing case management team then troubleshoots needs and works with the client to develop independent living skills. As needed, team members delve into clients' individual areas of struggle. Some need medication management and life skills, while others are more deficient in money management, substance abuse, mental health and work skills. Micah's supportive housing team is led by a Housing Navigator, whose job centers on re-housing and related support. This position is supported by a PATH outreach worker, who assists with mental health, a SOAR Coordinator, who works on disability applications, and volunteer mentors. When possible other community residential supports compliment our core team. Success is qualified as maintaining housing for 12 months or more, transitioning into other housing outside the program or increasing income through employment or other resources in a way that Micah's rental subsidy is no longer needed. Those who exit from the subsidy program continue to receive support services, as long as they require it.

**2. Was the original project awarded funding No  
for acquisition, new construction, or  
rehabilitation?**

## 6A. Standard Performance Measures

**Instructions:**

For each applicable question on this form, the Applicant must establish performance measurement goals for this project. Applicants are required to set a housing stability goal and to select at least one income-related performance measure on which the grantee will report performance in the Annual Performance Report (APR). The "Universe (#)" column specifies the total number of persons about whom the measure is expected to be reported. In the "Target (#)" column, applicants should specify the number of applicable clients (e.g., the number of persons for whom the goal is relevant) who are expected to achieve the measure within the operating year. The system will calculate a percentage in the "Target (%)" column. For example, if 80 out of 100 clients are expected to remain in the permanent housing program or exit to other permanent housing, the target % should be "80%."

**1. Specify the universe and target for the housing measure.  
 Click 'Save' to calculate the target percent (%).**

Housing Measure	Universe (#)	Target (#)	Target (%)
a. Persons remaining in permanent housing as of the end of the operating year or exiting to permanent housing (subsidized or unsubsidized) during the operating year.	13	10	77%

**2. Choose one income-related performance measure from below, and  
 specify the universe and target numbers for the goal.  
 Click 'Save' to calculate the target percent (%).**

Income Measure	Universe (#)	Target (#)	Target (%)
a. Persons age 18 and older who maintained or increased their total income (from all sources) as of the end of the operating year or program exit.	13	6	46%
OR			
b. Persons age 18 through 61 who maintained or increased their earned income as of the end of the operating year or program exit.			0%

## **6B. Additional Performance Measures**

**Specify up to three additional measures on which the project will report performance in the Annual Performance Report (APR).**

## 6B. Additional Performance Measures Detail

### Instructions

Specify the universe that each measure applies to, and the number (#) of applicable clients who are expected to achieve each measure within the operating year, the source where data will be compiled (e.g., data reported in HMIS), method of data collection (e.g., data collected by the intake worker at entry and case managers at exit) proposed to measure results, specific data elements and formula proposed for calculating results, and rationale for why the proposed measure is an appropriate indicator of performance for this project.

### 1. Specify the universe and target goal numbers for the proposed measure.

a. Proposed Measure	b. Universe (#)	c. Target (#)	d. Target (%) (Calculated)
Achieve greater self-determination	13	11	85%

### 2. Data Source (e.g., data recorded in HMIS) and method of data collection (e.g., data collected by the intake worker at entry and case manager at exit) proposed to measure results

Individual success plans will be created with each client upon their entry in the program. Those plans will be recorded and tracked in the client file and HMIS. Ongoing case notes and progress reports will be logged throughout the client's time in the program to track the client's success with their success plan.

### 3. Specific data elements and formula proposed for calculating results

A client who achieves greater self-determination will accomplish at least one goal on their Individual Success Plan in the first year.

### 4. Rationale for why the proposed measure is an appropriate indicator of performance for this program

While chronic homeless clients are on the street or in a shelter, they rarely accomplish anything that improves their overall situation. Therefore, a person in supportive housing who meets one of the goals on their Individual Success Plan has improved from their previous circumstances. This kind of an Improvement is an indicator that the housing program is working.

## 6B. Additional Performance Measures Detail

### Instructions

Specify the universe that each measure applies to, and the number (#) of applicable clients who are expected to achieve each measure within the operating year, the source where data will be compiled (e.g., data reported in HMIS), method of data collection (e.g., data collected by the intake worker at entry and case managers at exit) proposed to measure results, specific data elements and formula proposed for calculating results, and rationale for why the proposed measure is an appropriate indicator of performance for this project.

**1. Specify the universe and target goal numbers for the proposed measure.**

a. Proposed Measure	b. Universe (#)	c. Target (#)	d. Target (%) (Calculated)
Transition into a a less service intensive or un-serviced housing option	13	4	31%

**2. Data Source (e.g., data recorded in HMIS) and method of data collection (e.g., data collected by the intake worker at entry and case manager at exit) proposed to measure results**

Every person entering the program will be tracked in HMIS. This includes demographics, residence, progress and program entry and exit date. This information will also be kept in the client file.

**3. Specific data elements and formula proposed for calculating results**

A less service intensive or un-serviced housing option means that they reach a point of no longer needing a subsidy or move into housing outside the Micah program.

**4. Rationale for why the proposed measure is an appropriate indicator of performance for this program**

The chronic homeless population is generally weak on independent living skills. It is an incredible success for them to reach a point where they can manage an apartment on their own without financial or service help.
